

Trunz Water Systems provides different types of water treatment and desalination systems, depending on the application and water source.

**Solar powered, mobile use**

*If complete independence from external energy supplies is required:*

Trunz Water System - [TWS 200](#)

Trunz Seawater System - [TSS 200](#)

Trunz Brackish System - [TBS 200](#)

[Trunz Water Trailer](#)

[Aquifier 200](#)

**Solar powered, stationary use**

*If complete independence from external energy supplies is required:*

Trunz Water Unit - [TWU 002](#)

**External energy supply, mobile or stationary use**

*If external energy is guaranteed (either grid power, generator or Trunz [Solar Power Center](#)):*

Trunz Water Box - [TWB 002](#)

Trunz Seawater Box - [TSB 002](#)

Trunz Brackish Box - [TBB 002](#)

**External energy supply, stationary use only**

*If stationary use with an external energy supply is needed:*

Trunz Water Unit - [TWU 001](#)

Trunz Water Unit - [TWU 005](#)

Trunz Seawater Unit - [TWU 010](#)

**Brochures**

[TWS\\_general\\_brochure\\_english.pdf](#)

General brochure with basic information on Trunz Water Systems

**Installation**

The Trunz Water Systems are easy to install - please see our [Video](#).
